

GEOZOYSIA™

FINE TURFGRASS

- Fine leaf texture with a dark green color
- Good shade tolerance compared to other zoysias
- Extremely wear tolerant
- Minimal thatch problems

Geo Zoysia originated in Maryland and is a cross between a Zoysia Japonica and a Zoysia Tenuifolia. It has a fine leaf texture and a dark green color. Geo has good shade tolerance compared to other zoysias and is extremely wear tolerant. With minimal thatch problems, Geo is a very easy grass to mow using a standard rotary mower.
